The official conference program provides a comprehensive guide to all activities and functions associated with the conference. This program has a life that extends well beyond that of the conference and of those individuals attending this significant Asian Pacific American educational event. It serves as a significant publication resource containing abstracts of workshops focusing on the theme of the conference as well as highlighting our conference sponsors, exhibitors, and vendors, and concerned advertisers like yourself!

Past conferences have attracted a significant amount of college and university administrators, professors, support staff members, and students representing institutions of higher education in the nation. Additional attendees include members of community-based agencies and governmental offices with a particular interest to Asian Pacific American issues.
